SUMMARY

B.Tech Information Science and Engineering graduate (2026) with project experience in Python programming and application development using Flask and SQLite. Built authentication, data analytics dashboards and PDF reporting features. Foundation in OOP, data structures, algorithms, SQL, REST APIs and Git version control. Also developed full stack AI applications with LLM APIs. Seeking an entry level Python developer role.

PROJECTS

AI Document Q&A Assistant (RAG) **Jul 2026**

React.js, Node.js, Express.js, Groq, Transformers.js
github.com/shaym2024arnav-eng/ai-document-qa

- Built a full stack application to upload PDFs and answer questions using Retrieval Augmented Generation (RAG), returning document source citations and similarity scores.
- Implemented a document data processing pipeline with text extraction, overlapping chunking, local embeddings and cosine similarity search to retrieve relevant passages.
- Integrated the Groq API with Llama 3.3 70B to generate answers using retrieved document context.

AI Powered Smart Interview Preparation System **Aug 2025**

Python, Flask, SQLite, JavaScript, Chart.js
github.com/shaym2024arnav-eng/smart-interview-prep

- Developed a Python and Flask web application that generates interview questions, evaluates answers and provides feedback on areas for improvement.
- Implemented user authentication, dashboards and interview history tracking with SQLite storage, plus PDF report generation.
- Built data analytics and reporting features using Chart.js performance visualizations and PDF reports, with a responsive HTML, CSS and JavaScript interface.

Smart Reasoning Assistant **Jun 2025**

React.js, Node.js, Express.js, MongoDB, JWT
github.com/shaym2024arnav-eng/Aireasoningassistant

- Developed backend services and REST APIs using Node.js and Express.js with MongoDB storage and a React interface for a reasoning platform.
- Designed a Decomposer, Planner, Solver, Verifier and Explainer pipeline to produce structured solutions.
- Implemented JWT authentication and stored user reasoning history in MongoDB.

SKILLS

Languages: Python, SQL, C++, JavaScript, HTML, CSS
Frameworks and libraries: Flask, Node.js, Express.js, React.js, Chart.js
Databases: SQLite, MongoDB | **Tools:** Git version control, GitHub, Postman
Core concepts: Object Oriented Programming (OOP), Data Structures and Algorithms (DSA) in C++, Database Management Systems (DBMS), REST APIs, JWT authentication, SDLC fundamentals
AI application development: RAG, LLM APIs (Groq), embeddings, semantic search

LEADERSHIP EXPERIENCE

Technical Coordinator, FACIT Committee, REVA University

- Organized technical events and workshops for 100+ peers, coordinating schedules and communication with speakers and participants.

EDUCATION

REVA University, Bengaluru, Karnataka **Aug 2026**
Bachelor of Technology in Information Science and Engineering | CGPA: 6.6

Park Mount Public School, Patna, Bihar **May 2022**
Class 12 (CBSE) | 62%

Delhi Public School, Patna, Bihar **Mar 2020**
Class 10 (CBSE) | 80%

CERTIFICATIONS AND ACHIEVEMENTS

SQL Foundations, Microsoft | Silver medal, coding quiz competition
